### Mechanical specifications

|                    |   |
|--------------------|---|
| Core cross-section | max. 2.5 mm <sup>2</sup>  |
| Mass               | approx. 5 g   |
| Dimensions         | 15.1 x 15 x 18 mm (0.6 x 0.6 x 0.7 in)                              |
| Construction type  | removable screw terminal with integrated cold junction compensation |

## Features

- 3-pin screw terminal
- For KF modules
- Integrated Cold Junction Compensation
- Packaging unit: 1 piece, blue

## Function

The terminal block is suitable for K-System applications.

The blue terminal block is used for connection of signals from or in the hazardous area.

This terminal block has an integrated encapsulated Pt100 RTD for cold junction compensation.

The terminal block can be coded with the provided coding pins KF-CP.
